

Curriculum Vitae

SHAIKH NASIM ALI

Masters in Software Engineering, PhD Dropout

Phone : +91 9734712613

Email : nas27.2010@gmail.com

LinkedIn : [linkedin.com/in/shaikhnasimali](https://www.linkedin.com/in/shaikhnasimali)

Website : <https://nasim27.github.io/myPortfolio/>

Education and Training

Ph.D. in Information Engineering

2022-2024

University of Pisa

Pisa, Italy

(Ranked #404 in QS World University Ranking 2023)

(Ranked #139 for "Computer science and Information system" in QS WUR Ranking by Subject 2022)

- Discontinued due to unforeseen circumstances

Research Topic : Design and evaluation of architecture for next-generation mobile system

Masters in Software Engineering (Summa Cum Laude)

2020-2022

Lobachevsky State University of Nizhny Novgorod

Nizhny Novgorod, Russia

(Ranked #751-800 in QS World University Ranking 2023)

- Graduated with GPA of 4.79 out of 5
- Ranked among top 1% in the class

Master's Thesis : Road Following and Collision Avoidance in Robotics using Deep Learning

Thesis Supervisor : Nikolai Anatolievich Borisov

Bachelors in Fundamental Informatics and Information Technology

2016-2020

Lobachevsky State University of Nizhny Novgorod

Nizhny Novgorod, Russia

(Ranked #751-800 in QS World University Ranking 2023)

- Graduated with GPA of 3.87 out of 5

Bachelor's Thesis : Using Django Framework in E-Commerce Website Development

Thesis Supervisor : Nikolai Anatolievich Borisov

Academic Awards and Achievements

- **Russian Government Scholarship for Foreign Students** 2020-2022
Awarded Competitive Scholarship by Ministry of Science and Higher Education of the Russian Federation for graduate studies.
- **"Degree with Excellence" for Masters (Summa Cum Laude Degree)** 2022
Awarded "Degree with Excellence" for scoring excellent average marks
In graduate studies.

- **University of Pisa Grant for Ph.D.**
Awarded Ph.D. grant by the University of Pisa

2022

Project Accomplishments

1. IoT project based on ESP-32 and Arduino IoT cloud for controlling LED lights and monitoring Temperature and Humidity remotely.
2. A.I Robotics project based on Nvidia Jetson Nano for Collision avoidance and Road following methods using Deep Learning and maintaining it remotely.

Work Experience

Software Engineer

Multilab LLC

12/2021 - 03/2022

Nizhny Novgorod, Russia

- Building applications based on Microsoft Foundation Class Library C++ for VSDC Video Editor Software.
- Responsible for translating the VSDC video editor software into Bengali language.

Workshop

Nvidia Deep Learning Institute

08/2022 - 10/2022

- Awarded two certificates for demonstrating competence in the completion of “Getting started with Artificial Intelligence and Deepstream for video analytics on Nvidia Jetson Nano”

Skills and Techniques

- **5G Network Simulation and Optimization:** Extensive experience with network simulators, including OMNeT++ and Simu5G, to model and analyze 5G vehicular networks, multi-tier heterogeneous networks, and handover processes.
- **Machine Learning for Network Performance:** Expertise in developing machine learning models (using Neural Network, SVM, Random Forests, along with ONNX Runtime inference) to predict and avert counterproductive handovers in 5G networks, enhancing network stability and resource allocation.
- **Machine Learning in the field of Robotics and IoT :** Collection of appropriate datas and exploiting these datas using machine learning and implementing it to use the device as intelligent system.
- **Data Cleaning and Processing for Telecommunications:** Skilled in extracting raw data from OMNeT++ Simu5G simulations, then cleaning and refining it into structured datasets. This includes feature engineering with SINR values from multiple serving cells and preparing multi-dimensional data for effective machine learning model training.
- **IoT Devices and microcontrollers:** Have practical experience with IoT devices like Raspberry Pi, Nvidia Jetson Nano, ESP-32 and Arduino, and interacting them with various sensors.
- **Cloud computing :** Interacting with IoT devices using cloud computing and operating them remotely.

- **Parallel Programming** : Using OpenMP to implement multi threading for parallelizing threads to solve a problem in less time by dividing the work.
- **English for Research Publication and Presentation Purposes** : Achieved certificate for the completion of C1 level english course for writing(academic writing skills related also to scientific manuscripts) and speaking skills (presenting and debates on research project) offered by University of Pisa.
- **Full Stack Web Development** : Designed and implemented a full-stack portfolio web application with React.js (frontend) and Django REST Framework (backend), deployed the frontend via GitHub Pages and backend via Render.

Languages

English (Full Professional Proficiency)
Bengali (Native or Bilingual Proficiency)

Hindi (Native or Bilingual Proficiency)
Russian (Limited Working Proficiency)

Personal Particulars

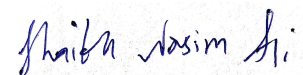

Name: Shaikh Nasim Ali
Father's Name : Shaikh Amjed Ali
Gender : Male
Date of Birth : 28.07.1992
Nationality : Indian

Permanent Address : Shaikh Nasim Ali
Khagragarh Milan Palli
P.O Rajbati, Dist Burdwan
West Bengal, India
PIN : 713104

Passport details :

Passport No. : V6631828
Date of Issue : 09.02.2021
Date of Expiry : 08.02.2031
Place of Issue : Moscow
Issued By : Indian Embassy in Moscow

Declaration : *I hereby declare that the particulars furnished herein by me are true to the best of my knowledge and belief.*

Place : *Burdwan, India*

(Shaikh Nasim Ali)
